TEXAS EDUCATION AGENCY SPELLING LIST

Background and Purpose

The Texas Educational Assessment of Minimum Skills (TEAMS) is an annual assessment of student achievement in mathematics, reading, and writing for Texas public school students in Grades 1, 3, 5, 7, 9, and at the exit level of high school. The initial assessment of basic skills, mandated by the Texas Legislature in 1979, assessed students in Grades 3, 5, and 9 with criterion-referenced tests, i.e., instruments that relate test items to specific learning objectives. House Bill 72, passed by the Second Called Session of the 68th Texas Legislature, extended the testing, beginning with the 1985-86 school year, to include Grades 1, 7, and the exit level.

At all levels the writing test includes an objective on the correct spelling of commonly used words. To provide school districts with definitive information about the scope of this objective, the Texas Education Agency has developed a spelling list for each grade tested with TEAMS. This list includes all spelling words eligible for testing at each specified level. In developing this list, TEA examined the spelling books which have been adopted by the State Board of Education.[1]

For a word to be included on the lists for Grades 3, 5, and 7, the word must appear in the first half[2] of at least two spelling books for its respective grade level. At Grade 1 the word must appear in the first two-thirds[3] of at least two Grade 1 spelling books. For Grade 9 all words appearing in at least two Grade 8 spelling books[4] have been deemed eligible for testing. The exit level test includes all words appearing in at least one Grade 8 spelling book.

Students often learn to spell from their familiarity with words through context. Though this list of eligible spelling words[5] has been provided for your information, the Texas Education Agency does not encourage the teaching of these words in isolation.
